The ADMA (<https://gispub.epa.gov/r9adma/>) will answer those questions; it's available to the general public. Turn on the PM-10 nonattainment layer and enter in the address in the search bar (upper right). Let me know if you want me to come over and show you.

Thanks,

Fletcher Clover

Subject: FW: Hickman - questions regarding permit status

Hi Fletcher,

Is there an easy way to see if a certain facility (by address) is in a nonattainment area? In this case, wanting to see if the addresses below fall in the Phoenix-Mesa nonattainment area for PM10.

Thanks!

Subject: RE: Hickman - questions regarding permit status

Hickman facilities are in Maricopa County. Here are the specific locations:

The Arlington facility (main facility) is located at 32425 W. Salome Highway, Arlington, AZ 85322.

The Tonopah location is 41625 W. Indian School Road, Tonopah, AZ 85354.

Thanks,

Janice

I'd need to know where Hickman is located to know if it's in a nonattainment area, serious or

not. I seem to recall it was in Maricopa county – but outside the NAA?

I can help out a little on the non TV side if you need it. I'd be interested in hearing about the Ag BMPs too, but if I'm not available go ahead without me.

Why don't you set up a time. My calendar should be up to date.

Subject: Hickman - questions regarding permit status

Hi Nancy and Eugene,

Do you know about the new Arizona Ag BMP regs? I'm trying to wrap my head around Hickman (the egg facility) between its Non-Title V permits and its Ag BMP permit for its equipment. I'm trying to see if the Hickman facility is in a PM10 serious nonattainment area as well as an 8-hour ozone moderate nonattainment area. It is my understanding that if it is not in a PM10 serious nonattainment area, then the Ag BMP regs don't apply. Is that right? Considering my questions, I'd like to meet to discuss.

Thanks,

Janice
